The diagram illustrates a 4-bit bus system with a master-slave handshake protocol. The master (top) and slave (bottom) exchange data and control signals. The master sends a 'BYE' signal, followed by data 'K1' and 'BYE'. The slave responds with 'BYE' and data 'K3'. The master then sends 'BYE', 'K2', and 'BYE' again. The slave responds with 'BYE' and data 'BYE'. The diagram shows the sequence of signals on a 4-bit bus over time.
